NEW CANDIDATES

For the Speakership of the House of Representatives.

CONGRESSMEN LODGE, FARQUHAR AND BAYNE ASPIRANTS.

Previous Calculations Knocked to Smithereens—Senator Beck's Health Considerably Improved By His Southern Trip. November Exports and Imports—Washington News.

WASHINGTON, Dec. 28.—The canvass for speakership of the next house became quite lively Wednesday by the advent of three newly fledged candidates, viz: Congressmen Henry C. Lodge, of Massachusetts; John M. Farquhar, of Buffalo, and Thomas M. Bayne, of Pittsburg.

The first two or avowed candidates and expect to win in case of a deadlock among the leading ones. Bayne, however, has announced his candidacy, but it is understood he is being gotten ready by his friends for the race.

These unexpected candidates have knocked calculations silly, and as they come from territory heretofore conceded to Reed, will hurt him more than any one else. It is thought Cannon, McKinley and Burrows have had something to do with this move in order to reduce Reed's strength.

Senator Beck Improving.

WASHINGTON, Dec. 28.—Maj. Goodloe has received a letter from Senator Beck, his father-in-law, dated Savannah, Ga. The senator said he was improving in health, and was enjoying the hospitality of his friends in Savannah. He will not remain at any one place for more than two or three weeks but will visit several points in the south where he can have a rest and a healthful climate. He does not expect to take his seat in the present congress except possibly during the latter days of February. He prefers to take a long vacation and restore his health perfectly rather than return to his duties at the capitol before he is thoroughly recuperated, with the danger of a relapse of his illness.

Colored Catholics.

WASHINGTON, Dec. 28.—The preparations for the first congress of colored Catholics, which is to be held in St. Augustine's church, commencing January 1, are nearly completed, and everyone connected with it feels confident of its success. It is expected that upward of six hundred delegates, mostly from the south, will be present. At 10:30 o'clock on the morning of the 1st, solemn high mass will be sung in the presence of Cardinal Gibbons, who will occupy a throne in the sanctuary attended by Rev. William Hooman and Rev. Richard T. Burke.

Exports and Imports.

WASHINGTON, Dec. 28.—Merchandise exports from the United States during November past, aggregated in value \$16,376,345, or about one million more than in November, 1887. Imports during November past aggregated in value \$33,866,151, or fully \$7,000,000 less than in November, 1887. For the eleven months of the present year exports aggregated \$606,005,386, against \$632,071,493 for the eleven months of 1887; imports for the eleven months of the present year were \$664,733,204, against \$656,707,250 during the eleven months of 1887.

Will Probably Get Outside to Die.

WASHINGTON, Dec. 28.—The president has pardoned Bishop A. A. Kimball, convicted and sentenced to nine months' imprisonment last September by the district court of Utah for adultery. The president states that this pardon is granted solely upon the representations made as to the convict's health and the recommendation of the judge and marshal based upon the fact that the prisoner is in an advanced state of consumption and can survive but a short time in his present surroundings.

Arrival of Immigrants.

WASHINGTON, Dec. 28.—During November past 55,419 immigrants came to this country against 32,198 in November, 1887. During the eleven months of the year ended November 30, 498,583 immigrants arrived in this country, or about eleven thousand more than during the eleven months of 1887. Of the immigration last month Germany furnished 6,457; England and Wales, 4,634; Ireland, 2,325; Sweden and Norway, 2,520; Russia, 2,082; Italy, 1,233; and Scotland 1,054.

American Historical Association.

WASHINGTON, Dec. 28.—The American Historical association, recently incorporated by act of congress, began its fifth annual meeting Wednesday evening in the lecture room of the Columbian university. William E. Foote, LL.D., librarian of the Newberry library, Chicago, as president of the association, delivered the opening address, which was mainly devoted to western history, notably the ordinance of 1787.

Coming From Abroad.

WASHINGTON, Dec. 28.—Chairman Britton, of the inaugural committee, has received a letter from a man in Dublin, and also from a man in the Isle of Wight, stating that arrangements are being made for an excursion from those points to the inauguration. They stated that a great many American citizens in the British isles and others propose to take advantage of this opportunity to attend the inauguration.

Uncle Sam's Officers Arrested.

WASHINGTON, Dec. 28.—The adjutant general has received a dispatch from Gen. Stanley, confirming the report that he and his aide had been arrested by the civil authorities of Austin, Tex., while attempting to eject a man in charge of property claimed both by the government and city of Austin. The matter has been referred to the department of justice for settlement.

A Big Coal Deal.

PITTSBURG, Dec. 28.—James Matthews, acting for Congressman W. L. Scott, has effected one of the most important coal deals ever made in the Monongahela valley. It consists in the purchase of \$105,000 worth of coal lands in Elizabeth township, this county, lying between the Monongahela and Youghiogheny rivers, a tract which is the key to all the coal lands lying back of it.

PRIVATE DALZELL AGAIN.

Unpaid War Claims That Can Be Collected for the Mere Asking.

CINCINNATI, Dec. 28.—Private Dalzell in a letter dated December 22, to the Post, says

he wants to make his old comrades and their widows and orphans a present of \$1,000,000 Christmas, all in a lump. "They do not know that each of them, and they number 100,000, has a claim for not less than \$10, and many as high as \$40 or \$50, which has never been collected, and which they can easily get for nothing. The reason why these small claims, all as valid as government bonds, have never been collected is that the law only allows 10 per cent. for such collections, and no attorney could handle them for such fees.

"Thank God, they need no attorneys now. They can present themselves without one cent of cost. Now for the claims. They are:

"First—Extra duty pay between October 8, 1862, and April 1, 1863, only, at twenty-five cents per day.

"Second—Furlough money, twenty-eight cents per day while on furlough.

"Third—About five cents mileage from place of discharge home.

"Not one soldier in a hundred ever got a dollar of this. Almost everyone has a claim for one or the other of the three items named."

DIGGING FOR BURIED GOLD.

Vain Task Some Imaginative Jerseymen Have Set Themselves.

NEW BRUNSWICK, N. J., Dec. 28.—From time to time gangs of men, from two to a dozen or more in number, have passed through Middlesex and Mercer counties, claiming to be on all sorts of expeditions. Some were, they said, taking a geographical survey of that portion of the country; others were searching for pottery clay or copper; but the majority of them gave the ready explanation that they were surveying for a new railroad.

It is now learned that many of these gangs of men have been on no such errand, but that they have been on a wild goose chase after gold, said to be buried in the two counties by the Hessian troops during the revolutionary war. The railroad scheme has been used repeatedly to conceal the real object of the searches for this hidden gold, and as the men would now and then drive a few stakes in the ground, they succeeded in making the natives believe their stories.

Lately, the farmers say, these men have been seen with lanterns flitting over hill and dale, and they are convinced that the search for gold is progressing vigorously. None of the farmers have joined in the search, and they laugh heartily at all the tales of buried Hessian wealth.

Several years ago a big discovery of gold coins was made at a point some distance down the Raritan river. A local paper gave a very minute account of the find, with a description of the coins, and had a big "beat" on its contemporaries. Men went to dig for more gold and there was a deal of excitement for a time.

Then it leaked out that a reporter on the paper which had the beat had buried the coins there himself, borrowing them from a New Brunswick collector, and had then hired a man to dig them up, and tell a consistent tale of his discovery.

American Economic Society.

PHILADELPHIA, Dec. 28.—The third annual convention of the American Economic society has opened here, under the presidency of Hon. Francis A. Walker. The report presented by Secretary Richard T. Ely, of the Johns Hopkins University, showed that the association membership had increased over 50 per cent. since the last convention, and that branches had been established at Galesburg, Ill.; Springfield, Mass.; Orange, N. Y.; Buffalo and Washington. The convention will remain in session until Saturday, and a large number of papers will be read by distinguished specialists.

Hopkins and Harper.

COLUMBUS, O., Dec. 28.—Ben. Hopkins is in a bad condition, and the indications are that it will be necessary for him to stand the tapping process before going home. His pardon has not been received from Washington city, but prison officials have arranged to have it delivered immediately on its arrival. Hopkins is annoyed at the delay and the worry weakens his already depleted system. Harper has been taken from the insane department to the secretary's office where he was employed previous to his recent alleged attack of insanity. Prison officials pronounce him cured.

White Cap Trials Postponed.

LEAVENWORTH, Ind., Dec. 28.—The trial of the alleged White Caps, which was to commence Wednesday, was continued until March 25. A change of venue from Judge Zenor was asked and granted.

Two new indictments have been found against Joseph Moon and Joseph Wells. The latter was arrested, but Moon is in Illinois. Morris Moreland, a prosecuting witness, says that the White Caps tried to decoy him from his house Monday night for the purpose of killing him.

A Crazy Congressman.

CLARION, Pa., Dec. 28.—Hon. James T. Moffett, member of the present congress from the Twenty-eighth district, has been admitted to the asylum at North Warren as a private patient. The difficulty seems to be excessive nervousness which was brought on by the arduous labors of the recent campaign.

Has Been Going on for Years.

BISMARCK, Dak., Dec. 28.—The examination of James Curran, the man arrested on the charge of smuggling opium from Canada into the United States, closed last night. Curran was held. He pleaded innocence of the nature of the packages which he transported across the border. It is believed here that the Curran examination will lead to the exposure of many wealthy men who have been in the business of smuggling over the line into Dakota for years.

A PREMONITION

That France Will Have a War Early in the Year.

THE PANAMA CANAL SUBSCRIBERS VERY INDIGNANT

At the Action of the Chamber of Deputies in Refusing to Make a Martyr of De Lesseps, and Unless Something is Done for Them a Serious Revolution is Threatened.

LONDON, Dec. 28.—Paris is talking more of the shabbiness of the subvention to the opera, and the last new scandal than of political affairs, but there is a premonition that the first quarter of the new year will not have passed without the occurrence of internal disturbances that are likely to precipitate a foreign war.

The disposition to anathematize the chamber for its refusal to bolster up the Panama canal and to make a martyr of De Lesseps has greatly changed. The indignant subscribers feel the need of a more tangible object to pour out their wrath upon than an ever shifting body of men, and it will not be long before the sanguine count will become the target for the vituperations, at using which their countrymen are such adepts.

Unless some scheme is adopted to partially recoup the shareholders there will be such a revolution as France has not seen for a century, and it is difficult to see how such a measure can be passed and existing laws nullified in the face of the determined opposition which will be evoked by the mere suggestions. There have always been avowed enemies to the canal in France, and so far as they have dared to do so they have exalted in its downfall. The money so literally thrown away came of course largely from the savings of the peasantry, who have begun in no measured terms to demand vengeance upon the robbers.

One political result will be the probable weakening of the attachment of the inhabitants of Alsace-Lorraine to France when they thoroughly comprehend that their money has been absorbed without there being a prospect of any return. A large proportion of them poured their savings into a big ditch, incited thereto by a feeling that they were doing a fine and patriotic thing in supporting a French project. The Germans will doubtless be shrewd enough to impress upon the minds of their new subjects that such a gigantic swindle could never have occurred under their rule, and it is even suggested that their claims to some remuneration by the French government will be added to Germany's list of grievances against the republic.

There is not much prospect that the coalition of the Radicals and Opportunists against Boulanger and his supporters, will attain any great strength. They would cheerfully draw and quarter the general and the Bonapartists and Royalists, when they allege to be his associates, but the efforts at persecution seem to strengthen his popularity, and his most dangerous enemies are his creditors.

His situation in regard to them would be perilous indeed were it not for assistance from several quarters, one of his aides being an infatuated lady of position, and there is even a project of a subscription among his admirers throughout France to preserve the popular idol from an enforced seclusion.

WORK PROGRESSING

On the Panama Canal—Not Likely to Be Discontinued.

PANAMA, Dec. 28.—The work on the canal continues, although on some sections labor has been reduced. Altogether some two thousand men have been discharged during the past two months owing to disputes between the canal company and contractors. It is not expected that more workmen will be dispensed with. The highest authorities consider a total suspension of work as very improbable. Such a suspension could only be occasioned by the complete failure of the reorganization scheme now under consideration in Paris. There are now about nine thousand laborers actually engaged on the works. There is no foundation for the report recently circulated that 75 per cent. of the men now in the employ of the company would be discharged at the end of the year.

The Leather Trust Weakens.

NEW YORK, Dec. 28.—The leather trust, formed by the manufacturers of Newark last summer, framed a price list. This list has been suspended, and patent leather men now see a way to dispose of surplus stock. George A. Halsey, president of the association, said Wednesday that he believed it would hold a meeting every month as usual. Others think that the suspension of the list is only the beginning of the end of the association. Newark is the leading city for the manufacture of patent leather in this country. About nine-tenths of all their grade is made there.

O'Connor Will Row Gaudaur.

NEW YORK, Dec. 28.—William J. O'Connor, champion oarsman of America, arrived in this city Wednesday. He called at Richard K. Fox's office to have the Police Gazette champion challenge cup, which he holds, packed up ready to take with him to San Francisco. He will start for that place with George W. Lee, in two weeks to row Jake Gaudaur for the Police Gazette cup, \$2,000 and the championship. O'Connor said that he would leave for Australia on March 7 to row Searle, champion of the world, for \$5,000 a side and the cup.

Masked Riders Still Unsubdued.

MARTIN'S FERRY, O., Dec. 28.—The White Caps came to Hopedale, Harrison county, Tuesday night, and gave Dr. John Parkhill a fearful whipping. His office boy got drunk and he was accused of drugging him. The Cappers have posted threatening notices all over the town.

Conference Postponed.

NEW YORK, Dec. 28.—The committee of the Southern Presbyterian general assembly appointed to confer with a like committee of the north have not yet arrived in this city and the conference will not take place until Friday afternoon.

SECRETARY VILAS' FUTURE.

After March 4 He Will Return to His Former Home and Practice Law.

MADISON, Wis., Dec. 28.—All statements to the contrary notwithstanding, it can be

announced upon authority that after the 4th of March Secretary Vilas will return to this city and resume the practice of the law. This disposes of the rumor that he intended to become the private counsel of a large New York bank, and also that he was to be identified with the east-office of a western land company. During his brief experience as a cabinet minister he has kept his hold upon his previous connection with a large number of corporations, and he is not likely to suffer for lack of clients upon his return home. He will not keep out of politics, however.

W. F. VILAS.

TWENTY-FOUR

Is the Number of Lives Lost By the Burning of the Hanna.

NEW ORLEANS, La., Dec. 28.—The total lost by the burning of the John H. Hanna is fixed at twenty-four. It is thought that of the injured men in the hospital here, four or five will die, among them Givens, the sailor man, the hero of the fire, who kept the boat to the bank at the sacrifice of his life. His face is horribly burned, the nose gone and both eyes out. His left arm is completely burned away, and the flesh is burnt to the bone on his left side and leg. The funeral of the victims of the fire took place Wednesday, the flags of every steamboat in port being at half mast out of respect to them.

Bob Smith, the pilot, who lost his life, was a famous man on the river, had faced half a dozen steamboat fires, and regarded himself as an unlucky man. He was on the R. E. Lee when she was burned, on the White, also, when there was a great loss of life, and on the Hanna when she caught fire some years ago, but was not destroyed.

There were reports that the fire was of incendiary origin, but nothing to substantiate it, and the cigarette theory still holds. The New Orleans papers all insist that some better plan be adopted to protect cotton boats from fire, the manner in which they are loaded and built making them dangerous in that event.

Steamers coming down Tuesday report the Mississippi at Plaquemine filed with burning bales from the Hanna. The Pargoud ran through burning cotton for ten miles south of Plaquemine, and it required the greatest watchfulness on the part of the crew to steer clear of the danger. She could not land at Plaquemine in consequence of the burning bales.

THE FUTURE OF THE KNIGHTS.

Extract From an Article By General Master Workman Powderly.

PHILADELPHIA, Dec. 28.—In the Journal of United Labor T. V. Powderly, speaking of the future of the order, says:

"For two years and upward the tendency of the order has been downward. In December, 1885, the New York Sun said that five men had a right to stop 5,000,000 wage-workers; that they had almost omnipotent power invested in them. The power and authority of five men and of the order they represented were so magnified that thousands of curiosity seekers gained entrance to the order. I have been pressed into service again with these words ringing in my ears: 'We are passing through a critical test; we need the aid of your experience, your counsel, your knowledge of the order.' If the order needs me it also needs every other earnest man and woman."

Experiments With Gunpowder.

MILLERSBURG, Ky., Dec. 28.—Tuesday John Jackson, eighteen years of age, while celebrating Christmas, put half a pound of gunpowder in a hole in the ground and placed a coal of fire on top of it. As it did not blaze he got down to blow it with his mouth. He succeeded in blowing off his nose, both of his eyes out, and part of the skull away. Strange to say he is still alive.

Tally One for Whisky.

VALPARAISO, Ind., Dec. 28.—George Anderson got drunk Christmas and that evening, armed with a razor, attempted to murder the family of John Van Wert. After a struggle he was overpowered by Mr. and Mrs. Van Wert, aided by their hired man, and later was arrested.

An Unhappily Fled.

ESCANABA, Mich., Dec. 28.—This town is terribly excited over the charges made against one of the oldest physicians in the place, who is accused of ruining nearly forty little girls, ranging from ten to fifteen years. He was arrested on this charge and gave bail, but jumped the same, leaving for parts unknown. Threats are made that if the man is caught and brought back he will be lynched. The man charged with the awful crimes is Dr. W. Mulliken, who located at Escanaba twelve years ago. The names of the victims are withheld.

A Ghastly Find.

PHILADELPHIA, Dec. 28.—Boys playing in East Fairmount park Wednesday found two bundles in a section of new thirty-six inch water main stored there. One of the bundles was opened from curiosity, and the lads were horrified by a human head rolling out. The police were notified, and further investigation developed the fact that the bundle first opened also contained the dismembered trunk of a human body. The other bundle, on being opened, disclosed the nude legs belonging to the trunk found in the other package.

Base Ball in Cuba.

HAVANA, Cuba, via KEY WEST, Dec. 28.—Several thousand people assembled Tuesday at Almendarez grounds to witness a game of base ball between a Havana club and an American team which arrived on Saturday. The game was very spirited throughout, every inning being strongly contested, but the American battery, McMahon, of Delaware, and Collins, of Brooklyn, proved too much for the Cubans, who were beaten by a score of 9 to 5.

The Act Incorporating the Maysville Manufacturing Association.

There has been considerable talk lately of reviving the Maysville Manufacturing Association in connection with the move to add to the industrial enterprises of this city. The suggestion has been favorably received, so far as learned, and a public meeting will probably be held, in a few days, to take some steps towards putting the scheme on foot. As a matter of interest to the public, the charter under which it is proposed to act is given below:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

§ 1. That — &c., and their associates and successors are hereby created a body-politic and corporate, under the name and style of the Maysville Manufacturing Association; and under that name shall have perpetual succession, with power to contract and be contracted with, sue and be sued, plead and be pleaded, answer and defend, in all courts of this Commonwealth and elsewhere, and may make all by-laws, rules and regulations they may deem necessary for the direction, management and control of the property, business and affairs of said association, and the government of its officers, agents and employees; may use a common seal, and generally do and perform all acts as a corporation which any individual may lawfully do and perform in and about the business hereinafter authorized, subject only to such limitations as are prescribed by this charter and the general laws of the State of Kentucky and the United States.

§ 2. The principal office of said association shall be located in Maysville, Kentucky, and the business of said association shall embrace such manufacturing interests as the association may establish, whether of cotton, wool, wood or iron, and the manufacture thereof into articles for trade or traffic, or the manufacture of any other thing lawful to be manufactured; and to that end the said association may lease or purchase and hold real estate, and may make improvements thereon, build and construct manufacturing and machinery, and cause the same to be operated, and purchase and use any personal property to be used in their business; they may sell and convey such property, or any part thereof; they may sell, trade or exchange all their reductions and property as natural persons do the same; they may conduct their operations and manufacturing directly and immediately through their own agents and employees, in whole or in part, or they may purchase and hold and sell stock in other corporations which exist or may be created, to conduct and carry on the manufacturing business in any of its branches: Provided always, That said real estate and manufacturing, whether owned and conducted by said association directly, or in which said association may purchase stock, shall be located and conducted in the county of Mason, including the city of Maysville: And provided, That this association shall, in all cases, where they may subscribe or purchase stock in other corporations, hold a majority of all the stock in said other corporation, and all the director in said other corporation shall be stockholders in this corporation.

§ 3. The capital stock of this association shall be five hundred thousand dollars, to be divided into twenty-five hundred shares of two hundred dollars each, to be subscribed and paid for in weekly payments of fifty cents on each share of stock. Any subscriber may cease to be a stockholder at any time by surrendering to the association, and forfeiting what has been paid on his subscription. And the association may forfeit the stock, and appropriate to itself the payments which have been made by any subscriber who fails to pay his weekly calls for such term and on such conditions as the association may establish. No subscriber shall be held liable for any debt of said corporation, or the payment of any part of his subscription, beyond the forfeiture or loss of the amount he shall have paid in. The association shall not have power to create any debt, except by the pledge of its receipts and income, for a time to be specified, not exceeding six months; the purpose and object being not to speculate, but to invest the capital of the association, as it may be paid up, in manufacturing, as provided in section two. The association may, from time to time, fix the premium or advance which shall be required of subsequent subscribers to equalize the subsequent with the prior payments made by stockholders; and said association shall make regulations for the sale and transfer of stock not fully paid up, making reasonable charges for the trouble and expense incident thereto. And when any stockholder shall have fully paid up his stock as subscribed, he shall be entitled to a certificate for same, which shall be deemed personal property, and transferable into stock, to be issued in lieu thereof.

§ 4. So soon as convenient, after one thousand shares of stock shall have been subscribed, the incorporators shall cause to be published, in the newspapers published in the city of Maysville, notice of the time and place when the first meeting of the association shall be held; at which time, or at an adjourned meeting, the association shall elect a board of control, to consist of twenty-four persons, all stockholders, and in this board of control shall be invested the power to conduct the business of the association. They shall elect all the officers, agents and employees of said corporation, shall vote the stock of this association in other corporations, and be subject to the provisions of this charter and the by-laws which may be established by the association. The board of control shall elect from their own number a President, who shall preside over the board and discharge the duties ordinarily devolved on such officer, or as may be prescribed by the by-laws. They shall elect also such other officers and agents as may be prescribed, and may require bonds from such officers and agents as they will approve, conditioned as may be required. The President and all other officers and agents shall hold their offices at the pleasure of a majority of the members of

the board of control at a regular meeting, or of two-thirds present at a called meeting. Said board of control shall not have the power to invest any of the capital stock in any real estate, manufacturing establishment, or other manufacturing corporation, unless by the approval of sixteen members, who shall constitute a quorum for business, upon a call of yeas and nays; but temporary loans may be made of funds as they accumulate for permanent investments in manufacturing by the majority of a quorum. Any member of the board of control shall cease to be a member upon failure to pay his weekly calls for four successive weeks. The board of control shall be elected at the annual meeting of the stockholders, to be held at such time and place each year as the by-laws may establish. The first board to continue in office until the regular annual meeting of the stockholders in the year 1874, and until their successors shall have been elected. No stock shall be transferred within thirty days prior to the annual meeting, and no person shall represent by proxy at any meeting or election more than fifty shares of stock. Vacancies in the board of control shall be filled by the board.

§ 5. In all elections and meetings of the stockholders, each stockholder shall be entitled to one vote for each share of stock, to the number of fifty shares. Any subscriber of more than fifty shares shall be also entitled to one vote for every ten shares held by him in addition to the fifty shares. No subscriber shall vote at any meeting who has not fully paid all the calls due upon his subscription. Authority for representation by proxy shall be in writing, and no proxy shall be binding or valid for more than one year from the date thereof.

§ 6. The property of this association may be assessed for taxation for State and local taxes, but the stock which is held by this corporation in another corporation, paying its own taxes, shall not be assessed against this association for any taxation, nor shall the stock held in this corporation be assessed for taxation against the owner of such stock.

§ 7. This act shall take effect from and after its passage.

WHAT has the Louisville Times to say in defense of its goose bone? The cold and sleety winter it predicted has failed to put in an appearance.

Why should there be such opposition to the effort to have the constitutional census of 1890 furnish a complete list of the survivors of the late war? Can it be that any one is unwilling to have it known what becomes of the \$90,000,000 which the Government pays every year for pensions?—Cincinnati Enquirer.

THE Republican continues to distort our comparison of the wages paid the cotton mill hands here in Maysville with the wages paid in England into an "abuse" of the proprietors of the Maysville mills. The people know that the BULLETIN's figures were given to expose the fallacy of the Republican's arguments on the tariff. Now he presumes to say what our motives were. His talk is contemptible.

"MR. CLEVELAND's very efficient" postal service brought us a letter from our old friend Charles Plister, written from Charleston, W. Va., on the 12th. When it got here it was old enough to vote for him for Mayor."—Maysville Republican.

It is hard to tell which is the most asinine exhibition, the idiotic spleen displayed in the first line of the above paragraph or the heavy wit of the ancient chestnut in the last line. Since the mail matter of the editor of the Republican is so important, we would advise him to hire a special train to convey it to him expeditiously.—Louisville Post.

Christmas passed off very quietly here. Lots of fire crackers, one fight and a few plain drinks was about the programme.

Wm. Campbell, who is working close to Lexington, Ky., is at home for the holidays. Although a benedict, Iker is just the same as he used to was.

Mr. and Mrs. C. W. Galbraith, of Manchester, were the guests of C. R. Sutton and family Christmas. Mrs. Galbraith and children will remain a few days. Mr. Galbraith returned home Tuesday night.

Thos. Madigan is now a full fledged fruit tree agent. Having packed his go-a-way bag with a few samples he started on his first trip Wednesday. To be a clever salesman and will deal fair and square with all who intrust their patronage to him.

Our merchants did a very fair business during the holidays, but how much better would it have been if folks would all leave their patronage at home? What a help and we could soon begin to assume city airs. It is no use talking, it is a poor way to advance a town to spend all your money elsewhere. It is real mean to kick a man on the down grade.

The hop at Odd-fellows Hall Wednesday night under the auspices of the Social Club was an elegant affair in all particulars and was attended by the creme de la creme of this and neighboring vicinity. It was a gay and handsome assemblage that gathered in the artistically decorated hall, handsome women and chivalric men. Promptly at 9 o'clock the inspiring strains of Prof. Campbell's Orchestra opened the ball. At the hour of 12 an adjournment to the popular restaurant of Mr. Hartman was greeted with tables laden with the season's delicacies. Ye gods, and little fishes, what a feast, and it was a compliment to the proprietor to say that it was simply enjoyed. Dancing was resumed at 1 o'clock and continued until the light of day had begun to reflect its shadows on the surrounding country and all ended in a blaze of glory. Score one for success for the A. S. C. The appended list was the participants of the happy occasion: W. P. C. McQuilkin and Miss Sadie McDaniel; Chas. Clark and Miss Bell McQuilkin; Gus Sorries and Miss Tillie Small; Robert McDaniel and Miss Lottie Woods; S. B. Grimes and Miss Clara Deterich; Sam Evans and Miss Lillie Mutschekhaus; John Drago and Miss Clara Mutschekhaus; Wm. Smith and Miss Lucy Madigan; Mr. and Mrs. Wm. Deterich; Seal Stewart and Miss Bertha Housler; B. B. Brookover and Miss Lizzie Rains; Henry Flaughner and Miss Cora Sutton; James Small, Wm. Small, H. L. Games and S. L. Turnipseed. As a final remark we say it was good to be there.

"Si Perkins."
Frank Jones and company will appear at the opera house to-night in the comedy "Si Perkins." An exchange, in speaking of the play, says:
It is a peculiar and exceedingly funny play, making very little pretensions to sentiment. It is not of the gross, vulgar order of comedy, but rather refined. The line between fun and vulgarity is very clearly drawn, and none of the latter is allowed to creep into the play. This is something rare in the comedy line, as it is very seldom a good comedy, entirely devoid of coarse jokes or "gags," is to be found on the boards. Frank Jones's impersonation of the simple country, Si Perkins, is something excruciatingly funny, yet at the same time mildly humorous. This company carries their own brass band and orchestra.

Exciting Time With a Burglar.
At Lexington a few nights since Mr. W. E. McCann, a son-in-law of Colonel W. W. Baldwin, had an exciting time with a burglar. At two o'clock in the night, he was aroused by some one trying to open a window immediately below his bedroom. "Procuring a pistol," says the Leader, "Mr. McCann took deliberate aim at the man below and fired. Instantly the thief jumped over the back fence and it seems passed around to the front of the house. Mr. McCann went to the front upstairs room and raised the window when the burglar fired at him. He followed it up with two other shots, each one going through a parlor window. Mr. McCann returned the fire, getting in two shots before the thief got out of sight. The first bullet fired by the burglar struck the wall within a short distance of Mr. McCann, and was found in the yard after daylight. It was completely flattened, but upon being weighed by a gunsmith pronounced to be a 38-calibre ball. There is little doubt of the robber being hit, as when he ran past Judge Mat Walton's that gentleman says he moved like a man who was suffering intensely."

RAIN AND SNOW.

California's Rainfall Far Above the Average.

SEVERAL INCHES OF SNOW REPORTED IN IOWA.

In Some Parts of the State the Storm Assumes the Appearance of a Blizzard. Trains Badly Delayed By Drifts—Telegraph Communication Seriously Interfered With in Several Western States.

SAN FRANCISCO, Dec. 28.—The rainfall throughout California up to the present time has been considerably in excess of the average rainfall for the first two months of the rainy season, and is largely in excess of the total rainfall of last year for the same period.

In the great wheat producing districts of the San Joaquin valley, where there was not enough moisture last year to save the crops, there has been from three to five inches of rain, as against one and a half inches last year. The increase extends over the whole state.

Telephones and Electric Lights Damaged. KANSAS CITY, Dec. 28.—A sleet and snow storm has done \$1,500 damage to the property of the electric light company, and \$20,000 damage to the property of the telephone company. All the telephone wires on Grand avenue from Sixth to Sixteenth street are down, and nearly all the poles on the same street are broken. It grew colder Wednesday night, and the rainfall ceased.

Heavy Fall of Snow.

MASON CITY, Iowa, Dec. 28.—Iowa was visited with a heavy fall of snow Wednesday, in some localities assuming the appearance of a blizzard. From Emmetsburg to the Dakota line there is an average fall of one inch, between Emmetsburg and Chickasaw about six inches, and east of Chickasaw to the Mississippi about two inches.

Uncompleted Building Blown Down. HARTFORD CITY, Ind., Dec. 28.—The steel rolling mill in course of construction in this city, one hundred and fifty feet in length and eighty in width, the frame work being completed, was blown down Wednesday evening at 4 o'clock, entailing a loss of about \$6,000.

An Iowa Blizzard.

WATERLOO, Iowa, Dec. 28.—The first blizzard of the winter made its appearance Wednesday morning. Over a foot of snow has fallen and the storm still rages. The snow is drifting badly and it is thought great delay to travel will ensue.

Bad Drifts.

DES MOINES, Iowa, Dec. 28.—A severe storm from the northwest commenced here Wednesday morning. The high winds and drifting snow are badly delaying trains. Eight inches of snow is on the grounds, and it is still falling.

Telegraphing Interfered With.

CHICAGO, Dec. 28.—A severe snow and sleet storm is raging throughout most of the western states, and telegraphic communication is badly interfered with in Iowa, Missouri, Kansas, Minnesota and Arkansas.

Eight to Ten Inches in Wisconsin.

MILWAUKEE, Wis., Dec. 28.—Dispatches from Wausau, Portage, Marinette and La Crosse report that from eight to ten inches of snow fell Wednesday and is drifting under a heavy wind.

First Snow Storm at Sioux Falls.

SIOUX FALLS, Dak., Dec. 28.—The first snow storm of the season came Wednesday. It is drifting, but not sufficiently to interfere with the railroads.

Row at a Shooting Match.

NEW YORK, Dec. 28.—At Tinton Falls, near Freehold, N. J., on Christmas day, a pigeon shooting match between Eugene Magee, of Tinton Falls, and John Morris, of Long Branch, was won by Mr. Morris. Some negroes who were present were dissatisfied with the result and made a savage attack upon a number of Long Branch white men. The negroes drew pistols, but the whites made a charge upon them and captured their weapons, which they broke to pieces, after having first used them in beating the negroes until the latter beat a retreat.

Cuban Cullings.

HAVANA, Dec. 28.—The Machine brothers who while under sentence of death for kidnapping, escaped from jail a month ago, have just murdered a detective who was after them, and again made their escape.

A special from Sagua la Grande announces the murder of a soldier and sergeant of the civil guard by the bandits near Jicotea. A telegram from Batabano gives particulars of the murder of Senor Carlo Sanchez Gonzales, an old resident of the town. He was arbitrarily arrested and then shot in cold blood by a sergeant of the civil guard.

Coke Too High.

PHILADELPHIA, Dec. 28.—Iron manufacturers in this city say that the manufacture of iron is now almost without profit and that some works will certainly have to shut down if the price of their necessities go much higher. During 1887 the price of coke was \$2 per ton, but at that time the iron mills were active, and the demand was exceedingly large. When operations became dull the price was reduced to \$1, subsequently being raised to \$1.25. The manufacturers add that there is nothing to justify a further rise.

International Socialist Conference.

CHICAGO, Dec. 28.—All the Socialist organizations of this city say that the manufacture of iron is now almost without profit and that some works will certainly have to shut down if the price of their necessities go much higher. During 1887 the price of coke was \$2 per ton, but at that time the iron mills were active, and the demand was exceedingly large. When operations became dull the price was reduced to \$1, subsequently being raised to \$1.25. The manufacturers add that there is nothing to justify a further rise.

A Request to the Spirits.

BOSTON, Dec. 28.—Gen. Butler is counsel for Edward Sumner, of New York, and others, who are trying to break the will of their maiden aunt, Sally, who was a near relative of the late Charles Sumner, and died last year, leaving large property. There appears in his will a bequest for the interest of Spiritualism. Gen. Butler stated that the clause in the will providing for the interest of Spiritualism was not in accordance with English law.

POINTED PARAGRAPHS.

Topics of the Times Given in a terse and spicy manner.

There are strong indications of a race war at Lamar, Miss. Johnson Hatfield, one of the worst of the Hatfield gang, died in Lawrence county, Kentucky.

At Ottawa, O., Guy Long, aged fifteen, had his right arm broken while trying to board a moving train.

Two young women by the name of Smith were drowned at Hillsville, Pa., while crossing the river in a skiff.

FINANCE AND COMMERCE.

Quotations for the Money, Stock, Produce and Cattle Markets for December 27.

NEW YORK.—Money 4 per cent. Exchange steady; governments quiet.

Currency sixes, 119 bid; four coupons, 128½ bid; four-and-a-half, 108½ bid.

The stock market opened irregular and feverish and after the first thirty minutes prices declined ¼ to ¾ cent, by 11 o'clock on selling of some of the leading stocks by the commission houses. After 11 o'clock the market became extremely dull and continued inactive until within a few minutes of noon, when the announcement was made that Lake Shore had declared a semi-annual dividend of 3 per cent., an increase of 1 per cent., and also that the directors of the New York Central had adopted a resolution declaring their intention to increase dividend in its stock to 5 per cent. annually. This news caused an active buying and prices at this writing are firm and the highest thus far to-day.

If You Are Sick

With Headache, Neuralgia, Rheumatism, Dyspepsia, Biliousness, Blood Humors, Kidney Disease, Constipation, Female Troubles, Fever and Ague, Sleeplessness, Partial Paralysis, or Nervous Prostration, use Paine's Celery Compound and be cured. In each of these the cause is mental or physical overwork, anxiety, exposure or malaria, the effect of which is to weaken the nervous system, resulting in one of these diseases. Remove the cause with that great Nerve Tonic, and the result will disappear.

Paine's Celery Compound

JAS. L. BOWEN, Springfield, Mass., writes:—"Paine's Celery Compound cannot be excelled as a Nerve Tonic. In my case a single bottle wrought a great change. My nervousness entirely disappeared, and with it the resulting affection of the stomach, heart and liver, and the whole tone of the system was wonderfully invigorated. I tell my friends, if sick as I have been, Paine's Celery Compound
